Cash Calls in Oil and Gas Venture Operations

12 - 16 Apr 2020, Dubai
27 Sep - 01 Oct 2020, Dubai
Introduction

In oil and gas projects, many of the international and national oil & gas companies are collaborating in Joint Venture (JV). The purpose of a JV is to develop and produce oil and/or gas in an economically viable manner. It also assists oil and gas companies to mitigate the risk existed in different stages of lifecycle of a field.

Billions of dollars are invested every year in the upstream projects. This huge amount of investments will be done mainly in accordance with the terms and conditions of a Joint Operating Agreements (JOA), which imposes an obligation on all participants to contribute funds to shared activities. Fundamentally, a Joint Venture agreement requires all participants to pay their share of expenses (operating or capital) upon a cash call by the operator; however, should any of the investors fail to pay its share. Such a failure will normally constitute a “Default” under the terms and conditions of the a Joint Operating Agreements (JOA).

This GLOMACS training course on Cash Calls in Oil and Gas Venture Operations has been designed to explain the basics of cash calling in Joint Venture contracts with practical accounting procedures and reporting; types of cash; fundamentals and workflows for cash calling in joint venture contracts; outstanding cash calls and repayment options; impact of cash default on joint venture operations and profitability. The course also highlights critical issues relating to implementing oil and gas joint venture budgeting and auditing processes. Both the structural aspects of cash calling as well as real-world case studies will be discussed to illustrate the field application of the concepts in the course.
